

# Case Management Working Group Resources

## Case Management of Uncomplicated Malaria

### Diagnostics and Treatment

1. (Job Aid): [Treatment of Uncomplicated Malaria among Women of Reproductive Age](#)

Two-page job aid to assist service providers in assessing women for pregnancy as well as correctly diagnosing and, if needed, treating them for malaria. Available in English, French and Portuguese.

*President's Malaria Initiative (PMI) | Centers for Disease Control and Prevention (CDC) | Maternal and Child Health Integrated Program (MCHIP) | Maternal and Child Survival Program (MCSP)*

### Private Sector

2. (Report/Publication & Planning Tool): [A roadmap for optimizing private sector malaria rapid diagnostic testing](#)

Report and action guide on incorporating the private sector into public sector strategies and implementation plans for malaria diagnostic testing and fever management for NMCPs and other key stakeholders.

*Population Services International (PSI)*

3. (Report/Publication): [Engaging the Private Healthcare Sector for Quality Malaria Case Management in High Burden Settings](#)

Learning brief describes the framework and outcomes of a private sector engagement approach for high-quality malaria case management in Kinshasa DRC to guide other high-burden countries.

*Population Services International (PSI)*

### Elimination

4. (Data Collection Tool) [District-level Readiness for Malaria Elimination Tool \(DREAM-IT\)](#)

Guide and 12-module assessment for national malaria programs to collect information on district level operational capabilities for malaria elimination, identify gaps and inform future operational planning.

*UCSF Global Health Group's Malaria Elimination Initiative (MEI)*

5. (Planning Tool): [High Risk Populations Surveillance and Response Guide](#)

Four step-by-step modules to help NMCPs build epidemiological evidence and resources to optimize selection and delivery of interventions for reducing malaria transmission among high risk populations.

*UCSF Global Health Group's Malaria Elimination Initiative (MEI)*

## Case Management Working Group Resources

6. (Planning Tool): [Reactive Case Detection \(RACD\) Monitoring and Evaluation Tool](#)

Four modules to guide decision making surrounding RACD operations for national or provincial level malaria program managers or surveillance officers.

*UCSF Global Health Group's Malaria Elimination Initiative (MEI)*

7. (Planning Tool): [Primaquine Roll Out Monitoring Pharmacovigilance Tool \(PROMPT\)](#)

Step-by-step tool to facilitate active pharmacovigilance surveillance data collection and safety monitoring of single low dose primaquine (SLD PQ) for healthcare providers in settings rolling out SLD PQ.

*UCSF Global Health Group's Malaria Elimination Initiative (MEI)*

8. (Training Materials): [Train the Trainer Materials for Data Collection and Reporting for Malaria Surveillance Activities](#)

Training manual, pre- and post- assessments, and materials for train the trainer sessions to strengthen malaria GPS surveillance activities and reporting to achieve malaria elimination

*University of Cape Town | CCOAT | MORU Epidemiology | WWARN*
