

Partnership To End Malaria

VCWG 3-5 February 2020

Larval Source Management workstream

Silas Majambere

Agenda		
Time	Title	Speaker
8:30 – 8:45	Welcome Review of the work plan	Silas Majambere All
8:45 – 9:15	Updates on a larviciding program in Ghana	Otubea Owusu Akrofi Abel Djangmah
9:15 – 9:30	Updates on a larviciding program in Uganda	Charles Ntege
9:30 – 9:45	Updates on a larviciding program in Tanzania	Samwel Mziray
9:45 – 10:00	Panel discussion with presenters (Q&A)	All
10:00 - 10:30	Morning break / fair-trade coffee, selection of teas, fruit juices, snacks Networking	
10:30 – 10:50	Aquatic habitats of dominant malaria mosquitoes in Tanzania	Ismail Nambunga
10:50 – 11:10	Contribution of larviciding intervention within the HBHI strategy in Africa	Mavy Hernandez
11:10 – 11:30	Use of GIS tools in Vector Control planning and monitoring	Mikhail Tiounine
	New theory on mosquito larvae respiration	Herbert Nyberg
11:30 – 12:00	Open discussion: How do we make the LSM work stream useful for National programs? Work plan 2020	All

Notes

- 134 have registered for LSM: we need a more dynamic group throughout the year
- Election of a new LSM co-chair
- Proposal for a focused work plan for 2020

Look back at 2019

The NMCP Uganda is planning a large-scale larviciding program. Technical support was provided in LSM best practices for trainers

Look back at 2019

Namibia, Botswana and eSwatini initiated larviciding pilot projects with the support of the GEF/UNEP/WHO-AFRO and *icipe*, Kenya

Look back at 2019

NMCP Ghana is planning a country-wide LSM program. Technical support was provided for trainers

Updated workplan 2020

- **Project 1:** Advocating for environmental management including habitat modification and manipulation and inter-sectoral collaboration as priority interventions in LSM
- **Project 2:** Innovative approaches to improve LSM – Review of state-of-the-art technology for LSM e.g. GIS, satellite imagery, use of drones for mapping and larviciding, new larvicide-application technology, areal application, etc.
- **Project 3:** Reviewing operational LSM in national malaria control programmes – Evidence of impact, training and support needs
